

First Aid-Procedures

1. If a child needs basic first aid, eg grazed knee needs a wipe and plaster – class staff manage using Class Safety Bag and wearing mask and gloves (to be disposed of after).
2. If a child requires more significant first-aid then staff call Mrs Harman using walkie-talkies or ipads as necessary. If it is during class time, take child to infant cloakroom area where Mrs Harman will meet child. If it is outside at playtime, then Mrs Harman will find you on the playground.
3. Mrs Harman will wear the appropriate PPE (face mask, gloves, apron, visor/goggles) to protect her from close contact. (Sadly, we have to assume that someone has the virus in order to be able to protect everyone, even if that is not the case).
4. Used PPE will be disposed of as appropriate, or cleaned as appropriate, according to the guidance.
5. All PPE is stored in the school-office, and each class has mask/gloves in Class Safety Bag.
