<p style="text-align: center;"><u>Maths</u></p> <p><u>EBM—Early Bird</u></p> <p style="text-align: center;"><u>Maths</u></p> <p>Mental Maths Train</p> <p style="text-align: center;">https:// www.topmarks.co.uk/ maths-games/mental- maths-train</p> <p>Play the game and practise your mental maths skills.</p>	<p><u>Maths</u></p> <p><u>L.O Can order measurements</u></p> <p>Find 10 items and measure them accurately to the nearest cm. If you choose a larger object, remember how we measure in m and how to record this.</p> <p>Now put all your items in order from the shortest to the longest.</p> <p>Can you measure the height of all the people who live with you? Are you able to put the measurements in order from shortest to tallest?</p> <p>Challenge question—Does the tallest person have the longest feet? Prove it!</p> <p><u>Computing</u></p> <p><u>L.O Create a tally chart and draw a pictogram or bar chart to show the data gathered</u></p> <p>Like we have been doing in class for the last few weeks, ask a question to your family members and gather some data. It could be, What is their favourite colour? What is their favourite food? What colour eyes do they have? Think of the things we have covered at school. Or use your own ideas if you wish.</p> <p>List the options and create a tally chart . Fill it in as you ask your family members the question. Remember to include the 'other' option.</p> <p>Can you now try and draw a pictogram or chart to show the information you have gathered. Remember 1 picture = 1 person in a Pictogram or 1 bar = 1 person in a Chart.</p> <p>This is to be drawn on paper if you do not have access to a computer or tablet.</p> <p>If you would like to use a computer/tablet, please use the following link</p> <p style="text-align: center;">https://www.j2e.com/j2data/</p> <p>Select either Pictogram or Chart</p>
