This section shows a brief overview of whose account you are accessing.

It will include your child's name and current class (which may change in September). It will also include an image of your child.

This year, we are planning having school photographs taken early in September. The image from this would be used here.

Clicking on your child's photo, their name or the "view student profile" tab.

This section shows any notices.

Currently, this lets you update any information your child has ever had on hearing or vision test. This can be useful information for school to have—if you have time to update it.

Clicking any notices will take you to the relevant section.

This section shows your child's previous and next session/event/lesson.

As a primary school, this will simply be their morning registration and afternoon registration.

However, it will also include before-and-after-school clubs that your child may be attending (once we have set these up on Arbor).

Clicking on these can reveal some further information.

This section remains present no matter what page you are on—and allows quick navigation to the homepage, see any notifications, shortcut to the calendar and open the help centre or allow you to sign out

This tab is very useful and allows you to navigate to key pages within your portal, including:

- Attendance
- Clubs (We will be building in further capacity to see clubs your child is registered for - as well as enabling booking clubs on here)
- Meals (Here is how you book your child's meals—which is now active. The next page on this guide will give further information on booking a meal)
- Payments (You can top up your account here. Once clubs, and other payments items, are set up on Arbor, a summary of invoices for these should be present)
- Progress (We are building the capacity to show in this section where your child is working in key curriculum areas in their termly assessments - reading, mathematics, writing, spellings)
- Assignments (We are unlikely to be using this section)
- Report Cards / School Shop / Trips (We will be exploring whether these could be useful features in the future)
- Basket (If making several payments at once when using the app, you can collate these into a basket and pay all at once)

This section will show your child's "grade average" and progress.

Clicking here gives further information regarding your child's attainment and progress.

We are working towards this section being useable for the end of next term. It will then be updated with termly assessment results and show your child's progress on a termly basis.

This section will show any “guardian consultations” - which are parent/carers feedback meetings or “parents evening” - information.

Ahead of these in the Autumn term, we will be exploring whether this will be a useful feature for us to use.
